082267841465 | abdikhairul71@gmail.com | <https://www.linkedin.com/in/khairulabdi/> | <https://github.com/abdikhairul71>
Prisai Pribumi 7, Binjai, Kec. Medan Denai, Kota Medan, Sumatera Utara

I am a Computer Science graduate with a strong foundation in Information Technology, specializing in Machine Learning and Web Development. I am proficient in Python and JavaScript, with hands-on experience in data analysis, as well as designing, building, and deploying machine learning models. I bring a versatile technical skill set, a strong passion for technology, and a commitment to continuous improvement. I value diverse perspectives in problem-solving, apply critical thinking in complex scenarios, and strive to understand human behavior to collaborate effectively within teams.

Work Experiences

Gugus Benjamin Mutu (GPM) – Postgraduate School, Universitas Negeri Medan - Medan, Indonesia

Jan 2026 - Present

Programmer / System Administrator

Gugus Benjamin Mutu (GPM) at the Postgraduate School of Universitas Negeri Medan focuses on quality assurance and the development of academic information systems to support postgraduate education.

- Developed, maintained, and administered 3 academic and quality assurance information systems at the Postgraduate School
- Managed the AISTEEL (Annual International Seminar on Transformative Education and Educational Leadership) system, handling approximately 50 submitted papers, including submission processing, peer-review workflow, revision management, and publication support.
- Developed and maintained the SMPPS (Postgraduate Student Admission System), which was used by approximately 50 postgraduate applicants.
- Served as a system administrator, managing user accounts, data validation, and system configuration.
- Provided technical support and troubleshooting for prospective and active postgraduate students experiencing system-related issues.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka - Indonesia

Feb 2024 - Jun 2024

Machine Learning Graduate With Distinction

- Delved deeply into Machine Learning and Deep Learning, specializing in TensorFlow.
- Executed 10+ hands-on projects involving data preprocessing, augmentation, model training, and evaluation techniques.
- Designed and trained 5 Convolutional Neural Network (CNN) models for real-world image classification projects.
- Established a solid foundation in Natural Language Processing (NLP), implementing various models such as RNN and LSTM.
- As the Machine Learning Lead in my capstone project, I developed a comprehensive project plan and created a CNN model for sound recognition, enabling accurate detection and classification of surrounding sounds. The project involved working with a dataset containing 10 different labels of sound data.
- Cultivated my soft skills by mastering the 7 essential areas: growth mindset, time and energy management, adaptability and resilience, critical thinking, effective communication, professional branding, networking, and project management.

UNDANKIN - Medan, Indonesia

Dec 2022 - Feb 2024

Front-End Developer

A company providing digital wedding invitation services through a web-based platform.

- Developed 8 website invitation themes using HTML, PHP, Bootstrap and jQuery.

Education Level

Universitas Negeri Medan - Medan, Indonesia

Aug 2021 - Nov 2025

Undergraduate, 3.90/4.00

- Undergraduate Thesis: Time-series forecasting of livestock food prices using Holt-Winters Exponential Smoothing with forecasting error consistently below 10%.
- Built a Flask-based forecasting dashboard to visualize predictions, trends, and model performance.
- Led a team that secured funding for the Student Creativity Program (PKM) in the PKM-PI category in 2023, organized by the Directorate General of Higher Education, Research, and Technology (Ditjen Diklitistik) under Belmawa's management.
- Took part in the Computer Science Expo by presenting research findings on Orange Maturity Detection using Support Vector Machine, achieving an accuracy of 91%.
- Published a paper on the Application of Random Forest Algorithm in Predicting Drinking Water Feasibility with an accuracy of 69%.

Organisational Experience

ROHIS SMA N1 KISARAN - Asahan, Indonesia

Aug 2019 - Aug 2020

Chairman

- A dedicated leader who sets an example in developing religious values and facilitates spiritual activities for students.

Skills & Certification, and Publication

- **Hard Skills:** Git, GitHub, Python, TensorFlow, PyCharm, GoogleColab, Visual Studio Code, JavaScript, Bootstrap, Tailwind CSS, PHP, SQL, Google Workspace (Gmail, Meet, Calendar, Drive, Docs, Sheets, & Slides), Microsoft Office (Word, Excel, & PowerPoint)
- **Soft Skills:** Problem-solving, Critical Thinking, Project Management, Teamwork and Collaboration, Effective Communication
- **Certification** : TensorFlow: Advanced Techniques Specialization, TensorFlow: Data and Deployment Specialization, DeepLearning.AI TensorFlow Developer Specialization, Machine Learning Specialization, Mathematics for Machine Learning and Data Science Specialization, , Data Analysis with Python, Process Data from Dirty to Clean, Analyze Data to Answer Questions, Share Data Through the Art of Visualization, Learn Basic JavaScript Programming ,Learn Basic JavaScript Programming.
- **Publication**  (2023): Penerapan Algoritma Random Forest dalam Prediksi Kelayakan Air Minum
- **Language:** Indonesia, English
